Plan ▶

- 1 Step back along the road wall to reserve space for opening the door of the shop, and leave outdoor temporary sitting and sleeping space.
- 2 Following the design elements of the curved door, the ordering area has both the bar function, which can be used for about 22 people to eat at the same time.
- 3 Convenience store, curved shelves continue the design elements, can provide a variety of goods for purchase.
- 4 Facing the door of the store as a flower display, the left and right sides of the coffee shop light food and convenience store cashier respectively.
- 5 8m² are separated as the back kitchen, providing simple meal making and storage space, reserving a dining outlet.
